2.7	Summary	66
3	Appraisal and Value for Money	69
3.1	Introduction	70
3.2	Scheme Summary Description	71
3.3	Capital Costs for Appraisal	71
3.4	Maintenance and Operating Costs	72
3.5	Risk Assessment and Optimism Bias	73
3.6	Traffic and Passenger Demand Modelling for the Preferred Scheme	75
3.7	Summary of Benefits	77
3.8	Sensitivity and Scenario Analysis	89
3.9	Assessment of Lower Cost Alternative	90
3.10	Distribution and Equity Analysis	95
3.11	Affordability and Financial Sustainability	95
3.12	Practicality and Public Acceptability	100
3.13	Treatment of 10 Year Plan Targets	103
3.14	Programme	104
3.15	Monitoring and Evaluation	105

3.16	Overall Value for Money Conclusions	107
4	Delivery	109
4.1	Introduction	110
4.2	Governance	114
4.3	Project Planning	125
4.4	Risk Management	127
4.5	Stakeholder Management	129
4.6	Scheme Progress and Monitoring	135
4.7	Summary	138
5	Commercial Case	141
5.1	Introduction	142
5.2	Outline Procurement Strategy	142
5.3	Infrastructure Elements of the Scheme	144
5.4	Provision of the Rapid Transit Service and corridor Bus Services	149
5.5	Commercial Risks	156
5.6	Summary	159
6	Financial Case	161
6.1	Introduction	162
6.2	Capital Costs	162
6.3	Treatment of Risk And Inflation	164
6.4	Preparatory Costs	167
6.5	Sources of Funding	171
6.6	Section 151 Officer Involvement	172
6.7	Summary	173
