

2009/10 Joint Scrutiny Committee Achievements

Background

1. This is the second year of the Joint Scrutiny Committee. The Committee's prime roles are to:
 - Scrutinise any relevant proposals from the West of England Partnership in relation to the full range of West of England Partnership activities: transport; planning, housing and infrastructure; waste management; culture, leisure & tourism; rural strategy; and skills & competitiveness;
 - Review actions taken and decisions made by the Executive Committees and other Executive bodies;
 - Make reports or recommendations to the Executive Committees and other Executive bodies as appropriate and/or the constituent authorities' respective Overview and Scrutiny Committees.

Scrutiny themes

2. During 2009/10 Joint Scrutiny Committee members identified three themes to be included within their agendas:
 - Ensuring a high quality, sustainable environment
 - Strengthening sub-regional economy
 - Tackling disadvantage.

Reports on each of these themes have been included in the 2009/10 Work Programme.

Work achieved

3. From June 2009 to March 2010 the Joint Scrutiny Committee have met on 7 different occasions. A summary of agenda items and actions agreed up to its February meeting is included in the attached Annex.
4. The views of the Joint Scrutiny Committee, against agenda items listed in the Annex, had a particular impact on the development of the:
 - Joint Local Transport Plan 3
 - Joint Waste Core Strategy: Draft submission document
5. In addition to the consideration of the topics detailed in the Annex, the Joint Sub-Committee considered 12 public forum statements, all relating to transport issues and presented by members representing transport interest groups.

Example of where Scrutiny has made a difference

6. The following is a more detailed examples of how the work of the Joint Scrutiny Committee has affected what has happened:

- **Major Transport Schemes (North Fringe to Hengrove Package – Development of Major Scheme Bid)**

The Joint Scrutiny Committee said: The potential for linking up the Major Transport Schemes had not been sufficiently considered, in particular extending the North Fringe to Hengrove Package to Cribbs Causeway and including the Park and Ride at Parkway North.

What happened:

- i) The North Fringe to Hengrove Package was extended to Cribbs Causeway; and
- ii) A schematic map was produced for the sub-region, which showed the whole of the Major Transport Scheme Programme for the West of England.

Annex: Joint Scrutiny Committee: Programme of work achieved during 2009/10

Annex

Joint Scrutiny Committee: Programme of work achieved during 2009/10
