Joint Scrutiny Committee
23 January 2009**

Joint Waste Core Strategy –Progress Report

Purpose of report

- To inform members about the progress of the Consultation on the Preferred Options Document of the Joint Waste Core Strategy.
- To advise members of the progress in the appointment of a consultant to project manage and provide technical support to the remaining stages of the Joint Waste Core Strategy.

Background

1. On 15 January the West of England Partnership Authorities will begin a consultation on the Preferred Options stage of the Joint Waste Core Strategy. The consultation will seek to clarify the range of views held by the industry, environmental and other groups and the general public on where new waste facilities could be located and to comment on how the authorities are approaching the preparation of the Joint Waste Core Strategy. The outcomes of the consultation will be used in drafting the submission document during 2009.

Progress

2. Consultants have been appointed to manage the consultation process and to provide a summary of the responses. The Consultation will be held between 15 January and 12 March 2009. The Consultation Plan has taken into account the requirements of the Statements of Community Involvement of the unitary authorities.
3. A Preferred Options Consultation Document has been produced along with a short information leaflet, 'Planning for Waste Treatment Facilities', which provides an introduction to the issues that are covered in more detail in the full consultation document. These documents have been distributed to Council Offices, One Stop shops, and Libraries and are also available to download from the West of England Partnership Website.
4. The consultation website www.westofengland.org/waste hosts the consultation document and supporting information, and allows responses to be made online to a series of consultation questions. Alternatively, responses can be submitted via paper forms or forms contained within the consultation document.
5. Alongside this process, a series of 12 drop-in sessions near potential development sites will take place between 2 February and 4 March. These events will be advertised in the local press and a full schedule of all drop-in sessions is available on the website (attached to this report). Invitations to these drop-in events have

been sent out to: previous consultees from the Issues & Options Consultation and Core Strategy Consultations; Statutory consultees; and Parish Councils.

6. A Stakeholder Workshop event has been scheduled for 6 February and invitations have been sent out to Key Stakeholders and Executive Members for Waste and Planning.

Progressing the Joint Waste Core Strategy to adoption.

7. Consultants are being appointed to project manage and provide technical support to the remaining stages of preparation of the Joint Waste Core Strategy. The work will include an appraisal or 'health-check' of the work undertaken to date and the further work to be undertaken to address any shortcomings and progress the strategy through to adoption. The further work to be undertaken will be set out as a project plan, to be up-dated quarterly, to facilitate rapid progress with this work and the early adoption of the Joint Waste Core Strategy.

Recommendation

That Members note the report.
